NSW RURAL FIRE SERVICE

Bush Fire danger period has commenced and Permits are now required

To apply for a permit contact our local NSW RFS Fire Control
Centre on 6226 3100

For Fire Plan Information visit myfireplan.com.au and
additional material is on the NSW RFS website. rfs.nsw.gov.au

Coming Events...

Annual Subscriptions - please send your details and **\$30** (cheques payable to 'Windellama News') to cover the annual cost of postage.

All cheques please post to:

The Secretary, PO Box 705, Goulburn. 2580

* Unpaid subscriptions will be cancelled after one month

If you have any short articles, anecdotes, or something else interesting about yourself, your family, or the community; please write it down and drop it in our letterbox at the Hall. We will edit it and publish it in the Windellama News.

A LOCKED POSTAL BOX IS AT THE FRONT OF THE HALL, 3444 OALLEN FORD RD, IN THE STONE WALL FOR THE COLLECTION OF ITEMS FOR PUBLICATION

Items left in the box after the deadline will not be collected or included in the News

Articles, adverts, etc may also be sent by email to:

newswindellama@gmail.com

Adverts sent by email will not be inserted unless payment is received by the deadline.

Our Policy on Receipts

The Windellama News makes out a receipt for all advertising payments made to the paper. We don't post out receipts to save cost and we assume that the appearance of the advertisement in the paper could normally be taken as proof of payment. If you require a posted receipt please include a stamped self-addressed envelope with your payment.

It would be greatly appreciated if anyone sending money to the Windellama News would include their name and address and a note saying what it was for and put it in a sealed envelope. This would avoid a lot of confusion and uncertainty.

Notice to advertisers, article submitters & readers

WINDELLAMA PUBLIC SCHOOL

ENROLLING NOW

Do you, or someone you know, have
a child starting school in 2021?

Please contact our office for an enrolment
pack and for more information.

Ph: 48445130

Email: windellama-p.school@det.nsw.edu.au

Join us for fun and fitness for the whole family
- all ages welcome.

Registration is open now for the 20/21 season.

This year we are very happy to welcome Tiny Tots to the age groups so the whole family can now be involved in Little Athletics, Open and Masters Athletes.

Register through our website www.southerntablelandsathleticsclub.org or via our facebook page.

School children - you are eligible to use your NSW Active Kids Voucher
Returning athletes from the last season qualify for a 10% discount on registration fees.

The summer season runs from October to March and the winter cross country season April - September.

Meets are held on Friday afternoons starting with a Come and Try Day during the school holidays.

We have 2 venues:

Tarago Recreation Area 2124 Braidwood Road, Tarago
Windellama Hall Grounds, cnr of Windellama & Oallen Roads,
Windellama

Enquiries:

Contact our registrar Gill Shepherd on 0419639254
or email: info@southerntablelandsathleticsclub.org or
message through
our Facebook page: Southern Tablelands Athletics Club

ABOUT BUSH SCHOOLS.

BY OBSERVER

It would be almost "another injustice to Ireland" to compare such slab shells as are the buildings called schools at Jacqua, Windellama West, and Rosevale with the hedge schools of the evergreen isle.

Windellama East School c1880

pestilent odours, the country scholar has clearly a treat advantage over the town boy. But hold hard here, if you please, for I find the department has not been entirely neglectful in expending money upon schoolhouses in the bush. Eu route to Tarago not long since I came suddenly upon a school and master's residence so hidden by the bush itself, and so like a gentleman's substantially - built lodge, that the words " public school " positively surprised me. Whence the cause of this extravagance for such it really amounts to, in thy

Bronte School c1890

expensive item, while the number of hours, at eight per diem, multiplied by the number of men, would doubtless make many eyes stare at the cost of labour alone. If those things have been got for Bronte, why not for Rosevale. Never mind the why and wherefore.

(Goulburn Herald, Saturday 14 August 1886, page 6)

By mental measurement I am sadly sure the country child does not receive his cubical allowance of air inside the school, but this deficiency of contents in the building is amply compensated by the entrance of fresh air and exit of the damaged article through crack and crevice between the slabs; and when the " wind whistles cold " neither teacher nor scholar has any complaint to make about the foulness of the air. In latrinal accommodation they are sadly deficient, but in the article " playground," the should-be, and now soon will-be, green-covered earth, with its freedom from vile smells or

favour, oh I Bronte in the bush? The scholars who attend this handsome school must come from far, for near there seemed to be nothing but the bush and the church, and the latter seemed plain indeed beside the school. About the school and residence there appeared to be everything the department could supply, even to a fully-rigged bell on a strong post in the playground. The cost of this one school would, I imagine, have sufficed to make comfortable several such poverty-stricken looking " schools " as I have seen within a radius of ten miles. To draw the necessary material into position must have been a very laborious and consequently

Tom Bryant.

Windellama SES First Aid & CFR

We are fortunate, in as much, that the Ambulance Service is conducting an induction course for new members from Captain's Flat and Windellama SES, which will benefit the people of both districts. This will be of great benefit to the people who need the medical assistance which can be provided by these dedicated people. This course was in doubt due to the Covid restrictions, but fortunately it is now going ahead, because of a reduction in the number of people who are permitted to attend.

Recent heavy soaking rain has been a little bit of an obstacle for emergency services and land holders alike. We had to winch and Ambulance out of a sticky situation just a few days ago. We fortunately have four wheel drive vehicles at Windellama SES Unit. We recently had a new four wheel drive vehicle allocated to Windellama. This replaces the trustworthy Hilux.

Please do not drive through flood waters.

The SES training is all being conducted on line until Covid restrictions cease to exist.

We hope that people are busy cleaning their roof surfaces and guttering in preparation for more rain and the fire season which is fast approaching.

Snakes will soon be a problem, so think seriously about cleaning around the home to keep these critters away. This action also makes it easier for the RFS if a fire does happen your way. I am actually practicing what I am preaching to you people.

We will have, by the time you read this, had a clean up day around our SES building.

Centre lines are marked on a road for a reason, so I thought, but I must be wrong after what I see on a regular basis, Oh! Well.

Kevin Muffet

Deputy Unit Commander

Bookings Preferred on 4849 4499

July Rainfall

At our place we received an extra drop 33mm giving us a total of 58.5mm for the month. The best July rain for sometime.

August Rainfall

August has seen the heavens open up, with 183.5mm so far at our place. For this year we have received a total of 654mm at an average of 81.75 per month. This has been the best since I started recording in 2014.

On the Friday 7th to Sunday 9th we received 141.5mm that caused the lake to establish at the rear of our place but by the Monday 10th morning you would wonder where all the water went!

Fruit Trees

When we planted the fruit trees and vines we planted them all on mounds. Just as lack of water can

have trees and vines turn their toes up, so can too much water by drowning them.

Garden Vegetables

The garden area at this stage is a bit of a quagmire, so very little is being done. The self sown Broad Beans are now over a metre tall and covered in flowers. Fingers crossed that most of the flowers set loaded pods.

Flower gardens

The Azaleas we have in pots are looking good, nice and green with flowers. So far the Red Spider has not found them yet and nor has Petal Blight.

Treatment for Spider Mite consist of keeping the area around the bush free of rubbish, that is, good garden hygiene. Also, Insecticidal Spays and Horticultural Oil sprays are suppose to work but I haven't had much luck with them. We have been keeping the plants healthy and hope.

This year we are going to try and introduce some Predatory Mites that can be purchased from Garden Centres for this problem. Also, will be looking at using Predatory Mites to control various pests on the fruit trees – can only try as most times, nothing Else works!

For the Petal Fungal problem you can try a copper based spray. The problem with this fungal problem is, it's hard to determine if it is fungal originating or the wind is causing it.

Bird Life

The magpies are nesting but this year instead of their normal site high in the gumtree the nest site this year is two thirds up in a Laylarnie Pine. This is giving their nesting site plenty of cover all round and on top of the nest. Does this mean plenty of rain? Or wind? Or hot weather? Or all three weather elements?

Cake Auction.

As previously mentioned, at this stage this annual event held in August will not be happening. If this Covid virus abates, then maybe we will hold it latter in the year – maybe!

Next Meeting No meetings have been organised at this stage.

Harry Simm

Secretary Windellama Garden Club Inc.

NERRIGA HOTEL

Pub opens at 10am, 7 days.

This is the month most of our fruit tree are in bloom. Let hope the frost is over.

VEGETABLES

Sow seeds of;- carrots, parsnips, beetroot, peas, cabbage, silver beet, radish, Also cucumber, Marrows, zucchini, Melons, pumpkins, squash.

Parsley , grow next to a tap as it requires a damp soil, feed regular with water soluble fertilizer If it dries out the plant will go to seed.

Capsicum, sweet corn and also tomatoes, you may have to cover tomatoes if we get a late frost. Beans.

Celery it is a heavy feeder, needing lime, a very fertile soil and regular watering. When plants start to grow well a side dressing of sulphate of ammonia and plenty of water will ensure a good crop.

FLOWERS

Sow seeds of;- Agertum, alyssum, asters, balsam. Carnations, cosmos.

Dahlia can be purchased in seedling form, mainly dwarf varieties, they grow to 60cm in height and come in colours of yellow, reds and pinks. The seedling form a tuber which can be replanted next year.

The taller dahlias such as decorative, cactus and water lily can be purchased as tubers. There is a wide range of colours. Tubers can be kept from year to year. If the soil is wet after the frost you can lift and store the bulbs, cover with saw dust. Place stakes when planting the tubers.

Dianthus, gypsophila, larkspur, linaria, lobelia, liverstone daisy, margolds nasturtium, pansy, petunias.

Bulbs- When spring flowering bulbs such as hyacinthus, daffodils, jonquils, ranunculus and anemone finished flowering , do not remove the leaves, let them die down naturally.

Prune wisteria and other spring bloomers immediately after they have finished flowering.

Cut back native hibiscus by two-thirds after flowering, and feed with blood and bone.

Pick off and bin rotten and mildew blooms on plants such as sweet peas, stock, azalea and dianthus.

Remove small fruit forming on ornamental spring blossom trees so they don't become hosts for fruit fly.

Divide and replant bearded iris after the flowers fade, ensuring the top of the rhizome is exposed to the sun.

Pour boiling water over weeds that are popping up between pavers.

NSW RURAL FIRE SERVICE

Windellama Rural Fire Brigade

Windellama Rural Fire Brigade remains open during the COVID19 pandemic as we are an essential emergency service for our community. In an **emergency call Triple Zero (000)**

Windellama Brigade Preparations

Bushfire Pre-season Maintenance day at the Windellama Rural Fire Brigade Station last month saw a great turnout of 11 members who washed, cleaned, checked and restocked all the trucks ready for fire season, removed the leaf litter from our carpark area, fixed the flagpole at our memorial wall, filled our station water tank and cleaned up a few dead trees around the station.

Bush Fire Danger Period has commenced

The Bush Fire Danger Period commenced 1 October 2020 and runs to 31 March 2021. If you are planning to light a fire in the open during this time, you will need a Fire Permit.

A permit is not automatic and in many cases one will not be issued. Factors such as your preparation, the topography for the burn, availability of fire suppression equipment, the expected weather and the potential to wait until the Bush Fire Danger Period is over.

The Permit may have additional conditions but will have these standard conditions:

- the permit is to be carried by the permit holder, on site, at the time the fire is lit
- the permit is to remain on site with those present until extinguished,
- the fire must be supervised at all times
- notifications are given to the NSW RFS, and adjoining neighbours at least 24 hours prior to the fire being lit and
- the permit may be varied, cancelled or suspended, depending on weather conditions
- substantial fines and prison terms of up to 12 months may apply to persons found to be in breach of the Rural Fires Act 1997 and its Regulations.

To apply for a permit contact our local NSW RFS Fire Control Centre on 6226 3100.

Get Ready now

It takes 5 minutes to improve or make a plan that will give your property, your family and yourself the best chance of survival should you be threatened by a bush fire.

Take the first step in preparing for bush fire, visit myfireplan.com.au and additional material is on the NSW RFS website. rfs.nsw.gov.au

For those not online you can call the Bush Fire Information Line - 1800 NSW RFS (1800 679 737) for advice on protecting your property and other fire related safety information.

Willow Glen Gardeners Club

September's meeting of the garden club was held at Rob and Robyn's. The meeting was initially planned to be held at Lynda's new house in Crookwell but Lynda caught a cold a few days before the meeting and, fearing a possible covid19 attack, quite sensibly got herself tested and withdrew from hosting the meeting. Happily, Lynda's test confirmed she did not have the dreaded virus and she was able to come along.

John arrived with his arm in a sling, thanks to his recent operation on his shoulder. His arm and shoulder are going well, and it appears that the operation was a complete success. Still, no more racing car driving for a little while at least.

Turning to members reports, common themes were rain and weeds. Since the drought earlier in the year was broken, at least in our area, there has been plenty of rain. Rob and Robyn's place has not dried out all winter, and Rob is not game to get his tractor out most of the time lest

it gets bogged. Harry said that Reedy Creek had flooded and he even lost his canoe downstream.

Of course, lots of rain and the warmer weather means lots of growth both in gardens and elsewhere. Most members reported strong weed growth just about everywhere, with cape weed being a major problem. Fortunately the wanted plants are also doing very well with most members reporting strong performances in their gardens and trees.

Kym's passionfruit is flowering and attracting swarms of bees. Lynda's agapanthus have collapsed over winter, but we all assured her that they will rise again in the warmer weather. Meanwhile her grape hyacinths are in full bloom and her vegetable garden is going well.

Judy and Warren's vegetable garden and bulbs have taken on the spring spirit. Their snow and snap peas are growing vigorously, as are the curly kale, silverbeet, lupins and cabbages. They plan to plant a variety of dahlias, gladiolas and bulbs shortly.

Sue is harvesting her potatoes and will be assured of a future crop as the smaller potatoes are currently shooting. Her salvias, which she has kept in pots, are now ready to be planted. Sue's broccoli is flowering, the poppies are up and running and her glasshouse is nearly finished.

Sadly, John and Carolyn's vegetable patch, which was protected by a covering of netting has been invaded by possums and rabbits, who have chewed their way into the garden and have had a nice veggie party.

Wandering around Rob and Robyn's developing garden, there were signs of new growth after the devastation of the previous summer, where the drought and the wingless grasshoppers exacted a heavy toll on their planting of the previous spring. One mysterious plant that has popped up, a bulb with yellow flowers, caused much speculation as to the variety which no-one recognised.

Rob and Robyn's decision to spray with a selective herbicide against the worst flat leaf weeds over winter has been rewarded, as most of the weeds are dying or at least are not setting seed. The grass hidden underneath is now starting to grow vigorously as the weather warms. Of course there is still much to do as the paddocks are a blaze of yellow as the cape weed comes into flower.

The ornamental maples are doing surprisingly well and appear to like the conditions, but a couple of the pepper trees have succumbed to the winter frost.

The addition of lime around some of the plantings appears to have had a good effect. The soil pH is only about 4.5, so plants that don't like strongly acid soil are struggling, but at least the camellias and crab apples are doing fine.

Our next meeting will be in October and we will no doubt hear tales of much growth and blooming as the warmer weather sets in. The next challenge will be insect attack, as the warmth brings out a diverse array of pests to predate our precious plantings. At least this year we are approaching summer with full water tanks and well hydrated gardens.

Lowline Cattle

A small beefy, Angus derived breed – quite & easy to handle.

Why Lowlines?

MORE BEEF TO THE HECTARE

- ✓ smaller size means easier handling
- ✓ higher stocking rates
- ✓ low birth-weights
- ✓ early maturity
- ✓ compact bodies
- ✓ excellent feed efficiency
- ✓ less stress on fencing
- ✓ less soil compaction

Great for first time cattle owners of any age and gender

Nerriga Gardeners

We met at Todd and Tracey's home the Corang River BnB and the new landscaping is impressive. I did suggest that the landscaper could do a visit to my place but got told he had a lot more to do at home! Again a lovely gathering with terrific food and company. It is amazing the new growth and effort from the wildflowers although some areas are showing little signs of recovery. With the very mild winter and rather warm spring so far things are moving along rather quickly and fingers crossed no late frosts as the trees are all in or close to blossoming. The weather was kind with gentle

warmth and less wind so that inspection of the new earthworks could take place in comfort.

Next meeting to be finalised but will be at Wingello on the 3rd Thursday 15th October starting about 10-30 to allow travel time. Everyone welcome and please bring a plate to share. Further info Kay Hamer kahamer@activ8.net.au or 0429063621 and I am getting better at keeping my phone handy and not out of charge.

Tarago and District Men's Shed. Oct. 2020 (COVID-19) edition.

The Men's Shed is continuing to be open to members only with due attention to hand sanitising and social distances. This is to ensure those of us with health issues do not suffer further complications.

The 3 phase power funded by the Village Discretionary Fund is now connected [and we can finally operate the large second-hand jointer we received from the Shoalhaven Woodies \(Nowra\)](#). The old donated air compressor was found to have significant, unrepairable damage. We sought a replacement (beg, borrow, etc) and were pleasantly surprised to have a large (also 3 phase) air compressor donated. Can now have lots of (hot) air and can use the sand blast unit. The new drum sander, sheet metal guillotine and bender provided by VMT have now been permanently installed and have already been used. Other equipment was rearranged to provide a logical layout and necessary space.

Megan Watson and Robert Howarth

Doug Gurney brought his 1928 Willys Whippet model 96 to the shed. Several of the men went for a run through Tarago and district, enjoying times of old, at 40mph.

The primary school principle Michelle Jones asked the men to repair and paint 2 large winding drum for use as tables. The kids have been enjoying these and the bright colours.

Member's Profile: Kym Wake

My wife Lois and I moved to the Tarago district from Canberra about five years ago. We were inspired to make a tree change following a visit to a friend who had just retired to Bowraville, to a spacious rural block with chickens, alpaca, sheep and lovely views. It took us six months to find our piece of paradise within one hour drive of Canberra. As soon as we saw the view at the back of the humble abode in Lower Boro we knew we had found our new home. We made the right decision and are grateful every day to be here.

I was born in the late 50's in the rural country town of Elliston, located on Eyre Peninsular, South Australia. I am the youngest of four children. My family farmed there until 1962 when we moved to Adelaide. I grew up in an inner north suburb of Adelaide where I completed schooling and worked until 1982. My siblings and my

adult children, Susan and Alex are still in Adelaide and we visit them regularly – hoorah the borders are open again!

I recently retired from the work force after working with the Department of Defence, 19 years in uniform with the Royal Australian Air Force, and 19 years as a Commonwealth Public Servant.

(Continued on page 27)

2020 Outreach Meetings Cancelled

At the meeting held 4th August, Council made the decision to cancel the 2020 Outreach Meetings due to COVID-19 restrictions and the NSW Government guidelines that indicate only essential public meetings should be conducted.

In order to ensure we are able to consult with our rural communities Council have put forward the following options for promotion:

- Individuals and community groups in small numbers are welcome to make an appointment to discuss issues with the Mayor, Councillor allocated to that village and the General Manager if you have specific concerns. Please contact Council on 4823 4444 to book a meeting.
- If you have questions or requests please contact Customer Service via 4823 4444 and these can be lodged in our system to be addressed.

As always we remind residents not to wait for outreach meetings to raise issues, no matter how big or small. We encourage our community to come forward with your questions, requests or issues at any time of year.

Whilst in uniform I was posted to RAAF Amberley (west of Brisbane), RAAF Darwin, Headquarters Support Command (Melbourne city) and RAAF Edinburgh (Adelaide). As a public servant I continued to move around the country, working at RAAF Edinburgh, HMAS Cairns (where I met Lois), and finally, the last 10 years in Canberra. I have lost count of how many times I have packed up a house and moved over the years! That's it now, we are never going to move ever again (famous last words).

I worked in logistics, gaining a wealth of experience in operational roles, procurement, contract management and project delivery. The last ten years I worked in capital projects as an Integrated Logistics Support manager (geeky term), which in essence, means analysing the holistic support required to deliver a Defence capability, such as training, spares, maintenance, publications etc. Capital projects I worked in include constructing satellite communications ground stations, communication upgrades to Navy ships, air-to-air refuelling aircraft, and upgrade to the battlefield airlifter capability. Working with international Defence partners and major aircraft contractors from Spain and Italy brought their own unique challenges, but it was interesting and rewarding work.

Lois and I like overseas travel. We regularly visit her family in the United Kingdom, and whilst there we have toured France, Scotland, Ireland. Right now we should be on a trip to celebrate my retirement by visiting Lois' family and taking a river cruise from Amsterdam to Budapest. However, COVID 19 had other ideas. We have travelled to Thailand, Vietnam, Singapore and cruised the South Pacific and around New Zealand. A fun fact; Lois and I got married onboard a cruise ship in the South Pacific.

There is no shortage of jobs to keep me busy around our block, looking after the chickens and bees, tending the vegetable garden, landscaping, house painting and collecting firewood. Recently, I have been clearing trails so that we can ride our mountain bikes safely around.

Lois and I have a strong desire for involvement in our local community. Work got in the way of so many things and now that I'm retired, I'm busier than ever. I am actively involved with the Tarago men's shed, vice president of TADPAI, treasurer of the Windellama RFS, and a member of Willow Glen gardeners club. Contributing to community brings its own rewards and I have met a lot of good people from around the district. So don't be a stranger, I'm always happy to chat or just say 'G'day'.

Excursions and fund raising maybe on hold, but we are going camping. Men, wives, partners, friends, dogs, etc, approx. 15, will proceed to Micalong Creek campground on the Goodradigbee River near Wee Jasper on Mon. 12 to Sat 17 September. Noel Sylvester has organised a special rate. Some will stay a night or 2 and others plan to be away the whole time. Looking forward to a few campfires and lots interesting (tall?) stories.

The shed is open. Contacts: Owen Manley, President 0409 041 783 or Lou Alaimo, Secretary 0428 328 686 or at taragodistrictmensshed@gmail.com
Stay Safe.
