

Windellama Charity Ute and Boot Sale

Sunday 20th November Windellama Progress in having a hosting a Ute and Boot sale, fill up your ute, car, trailer with things you want sell and get some extra cash for Christmas.

Vehicle or vehicle and trailer is \$15 per site, entry is gold coin charity donation at the gate. Windellama markets are also on, so the kitchen is open for food and drinks.

Gates open form 7.30 for stall holders, general admission is from 9am until 1pm.

Annual Subscriptions - please send your details and **\$30** (cheques payable to 'Windellama News') to cover the annual cost of postage.

All cheques please post to:

The Secretary, PO Box 705, Goulburn. 2580

* Unpaid subscriptions will be cancelled after one month

If you have any short articles, anecdotes, or something else interesting about yourself, your family, or the community; please write it down and drop it in our letterbox at the Hall. We will edit it and publish it in the Windellama News.

A LOCKED POSTAL BOX IS AT THE FRONT OF THE HALL, 3444 OALLEN FORD RD, IN THE STONE WALL FOR THE COLLECTION OF ITEMS FOR PUBLICATION

Items left in the box after the deadline will not be collected or included in the News

Articles, adverts, etc may also be sent by email to:

newswindellama@gmail.com

Adverts sent by email will not be inserted unless payment is received by the deadline.

Our Policy on Receipts

The Windellama News makes out a receipt for all advertising payments made to the paper. We don't post out receipts to save cost and we assume that the appearance of the advertisement in the paper could normally be taken as proof of payment. If you require a posted receipt please include a stamped self-addressed envelope with your payment.

It would be greatly appreciated if anyone sending money to the Windellama News would include their name and address and a note saying what it was for and put it in a sealed envelope. This would avoid a lot of confusion and uncertainty .

APCR stands for 'Air Pollution Control Residue'. It's the ash created during incineration that gets caught in the filters and flue of the incinerator. All the hazardous particulates trapped in the flue become part of the 'air pollution control residue', or fly ash. So what's significant about APCR?

APCR is chock-full of the usual toxic substances you get when burning plastics and other waste - dioxins, furans, heavy metals, polychlorinated biphenyls (PCBs) etc. But adding to them, this ash contains other chemical reagents that have been sprayed into the flue of the incinerator to help limit how much ash goes out the smoke stack.¹ It's deadly toxic ash with a side of extra-special toxic sauce.

APCR is classified as hazardous waste. The best way to manage this waste is to vitrify it (melt it into a glass-like substance) because the chemicals it contains are so toxic that they leach through most other substances.² But Veolia don't plan to do this.

APCR is so toxic it can only be disposed of at a specially licenced hazardous waste site. Veolia's Woodlawn facility is not currently licenced to accept this waste. But Veolia has confirmed it will be seeking an amendment to its licence to allow APCR waste to be buried at Woodlawn. Do we really want our town to have a toxic waste dump as well as a toxic waste incinerator?

So if Veolia plans to burn 380,000 tonnes of waste per year, how much APCR will this create? Veolia confirmed at the community information day in June 2022 that 5% of the waste will become hazardous APCR waste. So if they burn 380,000 tonnes per year, it results in 20,000 tonnes of hazardous waste every single year for the next 30 years.

If you're not a science or chemistry person, the whole range of chemicals APCR contains is mind-blowing. But what's easy to understand is that these are some of the deadliest chemicals and compounds known to humankind. Do we want 20,000 tonnes of it stored at Woodlawn each year? That's 600,000 tonnes of toxic waste over the life of the incinerator.

It's hard to imagine just how much 20,000 tonnes is. It's the equivalent of plonking 6,666 land-cruisers in Tarago each year, and then doing it again every year for thirty years!

The Titanic weighed less than 50,000 tonnes, so it's the equivalent 12 Titanics over the lifetime of the incinerator.

In other words, the incinerator will create enough hazardous waste to completely bury our town.

Can that much hazardous waste be buried up at Woodlawn without any of it contaminating the surrounding area? Do you want to buy a ticket in that toxic waste lottery? I sure don't.

1. Plasma Vitrification of Air Pollution Control Residues From Municipal Solid-Waste Incineration, Tu et al., IEEE Transactions on Plasma Science, January 2011.

2. A review on vitrification technologies of hazardous waste, Sanito et al., Journal of Environmental Management, August 2022.

Much much more

October is our spring, with many of ornamental shrubs and trees flowering.

VEGETABLES

Seed to Sow now;

Carrots, parsnips, beetroot, peas, cabbage, silver beet, radish.

Cucumber, Zucchini, Melons, Pumpkins, squash, Parsley, capsicums, Sweet corn.

Tomatoes; plants can be purchased from garden centres in single lots, so plant few early varieties followed by mid season and later

maturing varieties. If planting early in the month, protect the plants from late frosts by using a plastic bag around them supported by 3 stakes. For first variety of the season plant Apollo Hybrid, which matures early, has a firm skin, crops well, very firm.

Grosse Lisse is an old favourite garden variety, crops well, has good colour and very little trouble with wilt. Most varieties of tomatoes require

staking and in our climate, the strongest prevailing winds come from the west to north. Drive the stake into the ground first then plant the tomatoes on the western side of the stake, the reason for this is that the plant is blown against the stake. If planted on the opposite side the plant can break off at the ties. To increase the quantity and quality of fruit, pruning can be beneficial. Remove laterals which grow from the leaf base.

Last year I covered the tomatoes with a plastic garden cover, which gave them plenty of warmth and protection from the frost, but did not remove the cover early enough, so the tomatoes needed staking badly and I broke some when trying to tie them up.

Tomatoes grow best in a sunny garden containing plenty of compost. When planting out new seedling, apply a dressing of complete fertilizer high in phosphorous during the main growing season. Fertilizing every two weeks with a soluble fertilizer on cool overcast days or late in the evening. Fertilizing during the day can result in the plants being burnt. I never grow the tomatoes in the same bed as the year before, and do not lime the bed.

FLOWERS

Seedling and Seeds can go in now;

Ageratum, Alyssum (or sweet Alice),seeds, aster, balsam, carnation, cosmos, dianthus, gypsophila, larkspur, linaria, lobelia, Livingstone Daisy, marigold, nasturtium, pansy, petunias, phlox, portulaca, snapdragon, and verbena.

Dahlia, seedlings form, mainly dwarf varieties. The larger dahlias can be purchased as tubers. They will need staking.

Bulbs; When spring flowering bulbs such as hyacinths, daffodils, jonquils, ranunculus and anemone finish flowering, this is the month to feed them with complete fertilizer, for next year flowers.

NSW RURAL FIRE SERVICE

Windellama Rural Fire Brigade

Bush Fire Danger Period has commenced

The Bush Fire Danger Period for Windellama commenced 1 Oct 2022 and runs to 31 March 2023. If you are planning to light a fire in the open during this time, you will need a Fire Permit.

A permit is **not** automatic and in many cases one will not be issued. Factors such as your preparation, the topography for the burn, availability of fire suppression equipment, the expected weather and the potential to **wait until the Bush Fire Danger Period is over**.

The grasslands of Windellama are carrying heavy fuel loads and it only takes a warm day and some wind to really dry out the grasses and significantly increase the fire risk despite the rains.

Someone must be present to supervise the fire at all times until it is totally out.

The Permit may have additional conditions but will have these standard conditions:

- the permit is to be carried by the permit holder, on site, at the time the fire is lit
- the permit is to remain on site with those present until extinguished,
- the fire must be supervised at all times
- notifications are given to the NSW RFS, and adjoining neighbours at least 24 hours prior to the fire being lit and
- the permit may be varied, cancelled or suspended, depending on weather conditions
- substantial fines and prison terms of up to 12 months may apply to persons found to be in breach of the Rural Fires Act 1997 and its Regulations.

To apply for a permit contact our local NSW RFS Fire Control Centre on 6226 3100.

Get Ready now

It takes 5 minutes to improve or make a plan that will give your property, your family and yourself the best chance of survival should you be threatened by a bush fire.

Take the first step in preparing for bush fire, visit myfireplan.com.au and additional material is on the NSW RFS website. rfs.nsw.gov.au For those not online you can call the Bush Fire Information Line - 1800 NSW RFS (1800 679 737) for advice on protecting your property and other fire related safety information.

Brigade activity

The previous month was quiet for the Windellama Brigade except for some assistance required by NSW Ambulance.

Windellama Garden Club Incorporated News

August 2022 Rainfall

At our place we received an additional drop of 17.5mm given us a total drop of 65.50mm for the month.

The total yearly rainfall at our place to the end of August is 726mm, 55mm more than last year.

September 2022 Rainfall

So far up to the 18th of this month we have received 26.5mm and its still gumboot time.

Fruit Trees

Some of our fruit trees are in full bloom with some at the stage with the blossom on the verge of changing to fruit.

The rabbits are plentiful, so watch the trunks of your trees (they love some roses too) for the damage they cause. To prevent damage from these rascals slit plastic 80mm storm-water conduit and fit it around the trunk up to first branch. It can possibly mean removing the lower branches because when they stand on hind legs, they can reach up pretty high.

A couple of old remedies to keep these pests away, are Blood and Bone and Human Hair placed near your trees. When I get my hair cut next – when! I will be taking a bag with me and asking for the cut hair and will test this remedy out.

The best solution goes bang!

Vegetable Garden

This garden is still soggy and the paths between rows look like small canals. The recently Rice seed I purchased to plant are not viable. So, that experiment won't get of the ground or in the ground.

All the garden beds have settled and acid and alkalinity test completed and now waiting to be planted.

Flower Gardens

All the roses have been pruned and the removed parts taken to the tip. The council is now turning all of our green waste into compost and the compost I saw looks very good, especially for \$ 21 a front end bucket load, equal to about half a tonne. I'm considering trying it but will test ph before spreading it, as you should with any soil purchased.

The Daffodils are blooming and looking good but the Tulips didn't perform. Our Granny Bonnets are reaching to the sky, never seen them so tall. So, some plants have benefited from all the rain like weeds, while others have not!

Seed Planting

Due to the costs of purchased seedlings I have been growing my own. I started with tomato seeds and put 2 seeds in each cell. Four cells were planted with one type and the first plant was up in 7 days. Two weeks latter I had 3 plants up and at the 5 week stage 4 plants up. At 6 weeks after planting I had 8 seedlings up. The same thing happened with the Iceberg lettuce but at this stage I have 2 cells with only 4 seedlings. Other seeds planted are doing similar to the tomato and lettuce. Me thinks it because of the inconsistent variation in weather temperature and seed quality. One brand of tomato seed after 6 weeks is no show. It could also mean I was a little to generous with the water?

Bird Life

The Magpies have nested in the pine trees again, a sure sign of future wind and rain.

Club Members

The majority of members have voted to make application for voluntary cancellation of registration of an association.

Windellama Public School

Respect
Responsibility
Excellence

Mighty Playwrights is an annual program, working in collaboration with the region's primary schools to bring the joy of writing and storytelling to the next generation of young people.

Seven young writers, aged 9-12 years, and nominated by their schools, are working tirelessly in the library for 8 weeks to develop and write short stage plays. Through mentor relationships with professional writers, illustrators, actors, and musicians, our Mighty Playwrights are creating some amazing stories, about issues that are important to them. Goulburn's Lieder Theatre Company will take the completed play scripts and turn them into magical full-scale stage productions.

Windellama Public School student, Ellie, is one of the Mighty Playwrights in this year's event, a big congratulations for all the hard work that Ellie has put in to be a part of this fabulous performance.

NSW STATE ATHLETICS

We would like to give a big CONGRATULATIONS to our relay team: Josh, Lacey,

Jeremy, and Emily. These students attended the regional athletics carnival at the AIS recently. The relay team will now travel to Sydney on 20 October to represent our school at the State Athletics Carnival. This is an incredible achievement!

Along with an Early Childhood Teacher our staff are Diploma & Cert III qualified

Hello folks! First off, we would like to send a huge thank you to Tim and Alanna at The Loaded Dog for their support with the Fathers' Day raffle and the Friday night raffles during the month of September. These are key fundraisers that are successful because of their ongoing support.

We would also like to send a big thank you to Toby White and his men, from the Daisy Park Cattle Company Pty Ltd, for

the great work performed at the Men's Shed. We had a problem with the electrical supply to our new dust extractor, which decided it needed a rest only a week after installation! So, we engaged Toby and his intrepid team of thrill seekers to remedy the situation. In doing so, they also wired in four new lights in the main workshop and updated the power distribution board to the welding area.

Thanks again Toby.

Thank you to Goulburn Bunnings for their very generous donation of cutting disks, sandpaper and various tools for the workshop.

A big thanks to the Men's Shed Committee for the purchase of an air fryer and rice cooker for the cafe at the Shed. These are great additions to our catering operations. And finally, thanks to Dom for driving to Sydney and back to collect our welding fume extractor.

A Farewell to two of our best!

A few weeks back the Men's Shed arranged a send-off for Lou and Marie Alaimo who have left the district to resettle in Canberra. Lou and Marie were prominent Tarago citizens for twenty or so years and in that time, they held positions of president and secretary in most of our local community organisations including TADPIE, the Showground Society and The Men's Shed where Lou was one of founding fathers. They have both made an outstanding contribution to the Tarago community and we wish them well in their new life in Canberra. Thanks to all who came along.

Men's Shed October Catering News.

Well! What a year we are having in the catering section of The Men's Shed! We have been flat out helping with fund raising for the Shed including putting on BBQs and pancake morning teas. Lots of work has gone into these functions, but it is well worth it.

Upcoming Events

There will be a Kebab and Chips BBQ for members on Saturday 22nd of October at the Shed. We are looking forward to seeing our members there. Local blokes who would like to join are welcome to come along and meet our current members.

The Tarago markets are on 29th of October and to coincide with International Sausage Day we will be selling a range of international sausages, hot dogs and soft drinks. As always, we are happy to take interested folk through the Shed to show you what we do.

The other big news is the *Christmas Hot and Cold Buffet* which will be held on Sunday 18th December at 1pm for a 1.30pm lunch. Partners are welcome as well. The cost is \$10.00 per person. Lunch bookings open on the 22nd of October and close on Saturday 10th of December. This is always a great function, and we look forward to seeing all of our current members and their partners.

Finally, we have already started planning for 2023, and first up is an Australian Day BBQ on the 26th of January. The cost will be \$5.00 per person.

(Continued on page 18)

(Continued from page 17)

Cheers, Cookie

IGA Fund Raising Sausage Sizzle

Also, on the subject of food, The Men's Shed ran the IGA sausage sizzle on Saturday 10th of September. Thanks to Noel, Kim, Doug and Peter for giving up their time to manage the stall. Thank you to IGA for your support of the Tarago Men's Shed, once again.

Men's Shed Projects

So, what have men being doing the shed? Bob has been building some Christmas lights that look very interesting. Chris is working on his parlour guitar. Doug is restoring an old cedar bookcase. Laurie is constructing a bird seed separator along with designing the new movable pergola. Robert's attention is focused on finishing the boot rack, which looks great. Noel is finishing toy projects for the Christmas raffle, and I have been up close and friendly with a very large piece of pine slab that is going to be a table.

Anyway, folks thank for your attention, and we will talk again next month.

Peter Styles
President
Tarago Men's Shed

(Continued from page 19)

An important part of our meetings is that members often bring along cuttings and plants to share. Carolyn brought along some sedum, and Robyn brought along some dwarf irises and some rooted cuttings of a fuchsia that she has been growing indoors. Fuchsias are easy to strike from cuttings, producing roots even in glasses of water. They do need quite a bit of pruning if grown indoors but flower profusely.

Our regular readers may remember a couple of stories recently concerning John's new bull, which had to replace his predecessor due to poor performance. John has promised to give us an up-date on the new boy's progress for our next newsletter, which should be quite entertaining. Some hints were provided at this meeting, but nothing definite enough to report just yet. So stay tuned for the next instalment of the adventures of the "Belted Galloway Bully Boy".

Willow Glen Gardeners

<http://www.whispersfromwillowglen.blogspot.com>

For our September meeting we dared to take the trek down Boro road to Lynda's lovely property. With all the rain and associated pot holes and other road subsidence, we were all a bit nervous about the trip, lest we end up in a ditch beside what passes for the road or completely bogged.

The garden gods, however, were smiling on us (as well as the local Council), as a grader and roller were working on the road as we arrived, giving us smooth passage to Lynda's gate. Well done Council!

The day itself was a bit on the cool side, with lots of cloud about and rain threatening, together with a keen wind. However, we were able to get about Lynda's extensive fruit tree orchards and garden, under the watchful eye of her guinea fowl, which sounded the alarm when any of us approached.

Lynda has over 72 apple varieties planted and is awaiting a further six to complete her collection, many of which are heritage apples. With that many apples to harvest, she is busy making apple cider, which hopefully we will all be able to sample soon.

With the continuing wet conditions, many of our members reported water logging in their gardens, which is causing some plant losses among fruit trees and ornamental shrubs alike. We have

at least one tractor bogged in the paddocks, which is patiently awaiting drier conditions to be rescued. Given another La Nina is predicted for this summer, the tractor may have to wait quite a while.

On a more positive note, Lloyd and Irene have good turnip and pea crops, whilst many other members have great bulb shows, especially the daffodils. The heliconias have put on a great show this year, as they seem to like the wet conditions. Danny and Vivien's Jerusalem artichokes have thrived this season and are producing large numbers of seedlings.

Even though the cold and wet conditions are still with us, most of our members are seeing some spring growth in their gardens and are busy planting some flowers and vegies, in the hope of a great summer. As for the last couple of years, the gardens this spring and summer may not need a lot of watering.

Agricultural & Environmental STUDY TOPICS for 2022

Flora: **BANKSIA**

Fauna: **AUSTRALASIAN BITTERN**

(*Botaurus poiciloptilus*)

Foe: **BLACK WILLOW (*Salix nigra*)**

Primary Product: **COFFEE**

Country of Study: **LATVIA**

The CWA's Tarago Branch held their September meeting on the 14th.

TARAGO CWA BRANCH MEETING and AGM

The Tarago CWA Branch Meeting & AGM will be held on Wednesday 12th October. Karen Pavey is attending and we are all heading to lunch afterwards at the Loaded Dog Hotel.

THE OCTOBER HALLOWEEN MARKET IN TARAGO

This month will see the Tarago Country Kitchen in the Tarago Town Hall alive and well with the CWA catering from the kitchen and the BBQ sizzling to cater for the hungry hordes. Pop on past for your breakfast, morning tea and lunch and be amazed at the range of choices. The tables & chairs in the Tarago Country Kitchen will be out ready for your seating.

GROUP INTERNATIONAL, CULTURAL and AGRICULTURE & ENVIRONMENT DAY

A combined day was held recently in Goulburn, there were beautiful Latvian craft and embroidery as well as Latvian posters from our Tarago schools and Journals as well.

AGRICULTURE AND ENVIRONMENT REPORT

Australia's Household Waste Problem (Part 7)

Recycle 1:

Last but definitely not least: recycle. Once you've gone through all of the other R's, recycling is still the most environmentally friendly waste disposal method.

Most people know the basics of recycling in the council bins. What you can and can't recycle in council bins varies between council areas so contact your local Council if you are unsure.

Here are six tips to recycle effectively:

- **Keep it simple:** Only recycle paper and cardboard, steel and aluminium cans, glass bottles and jars (lids off), milk and juice cartons, plastic bottles and hard plastic bottles and containers marked 1 to 5 only (not 6 or 7)*. Aluminium foil should be squashed into a fist-

Photos Robyn Briggs

sized ball. All lids, plastic and metal, should be removed from bottles and jars.

- **Keep out soft plastics:** This includes all plastic bags, even if they have a recycling symbol, are degradable or compostable, and other soft plastics including cling wrap, chip packets and bread bags. Coles and Woolworths supermarkets will take these plastics in the REDcycle collection bins. It will then be recycled into furniture, children's playground equipment, roads and even car parks.
- **Keep out small items:** Items smaller than a credit card must be put in the landfill bin.
- **Keep it safe:** Keep out strapping, hose, netting, wires, building materials and other hazardous materials.
- **Keep it clean:** Wipe or rinse any excess food and drink from all bottles, containers and tins before placing them in a recycling bin.
- **Keep it loose:** Don't bag or box your recyclables. They must go into the bin loose.

Some things cannot be recycled in the council bins. Keep the following things OUT of the recycling bin:

- Recyclables in plastic bags
- Plastic bags and other soft plastics
- Polystyrene foam except to Tarago Tip
- Takeaway coffee cups
- Soiled paper
- Soiled pizza boxes
- Loose shredded paper**
- Drinkware/crockery
- Broken glass
- Food
- Nappies
- Batteries, light globes, mobile phone
- Hazardous material e.g. syringes, sharps, medical waste, asbestos, gas bottles
- Motor oil

In some councils areas (e.g. QPRC) black plastic plant pots cannot be recycled but coloured ones can. Goulburn Mulwaree Council accepts plastic plant pots for recycling if they are marked 1 to 5 on the bottom.

Larger items such as whitegoods, scrap metal and green waste can be taken to the tip and unloaded for free. Used oils, fluorescent light globes, farm chemicals and other hazardous materials can be taken to some tips and put in special containers for disposal.

Common household problem wastes such as motor oils, paint, gas bottles, fluorescent globes and tubes, batteries, household chemicals and farm chemicals are not always accepted at tips – these may be accepted at Community Recycling Centres (CRCs), Household Chemical CleanOut events or ChemClear events. Check with your local Council for specific information.

*Hard plastics marked 1 to 5 only (not 6 or 7) are accepted for recycling in Goulburn Mulwaree Council. Check with your local Council for specific information.

** In Goulburn Mulwaree and Queanbeyan Palerang Council areas, shredded paper cannot go into the yellow bin. It can however be boxed or bagged and taken to Endeavour Industries at Oxley Street in Goulburn for recycling. Otherwise it has to go into the red landfill bin for disposal.

INTERNATIONAL REPORT

Latvia has dense forests and attractive beaches with a long history of being over-run in wars but never losing their identity. So now they have a history of music, arts and cooking with intact castles which are used for celebrating their history. There are many festivals in the short summer where the days are sunny for about one and a half months with clouds increasing until they have six months of fully overcast weather. For this reason the best time to visit is from April to September with the months of May and June being the best times.

Latvia is recognised for its choral singing where at times there have been 30,000 people singing at once. This could happen during the Song and Dance Festival where the streets are swamped with singers and dancers and people wearing regional costumes. I've heard from several sources about the 30,000 voice choir in Latvia. The other mainly musical festivals are Summer Sound which is held over midsummer on the beaches, the Positiv Festival for young people which is held on the coast, the Riga Opera which this year is performing "The Flying Dutchman" and the Sigulda Opera Festival which is held in a castle for performances by international stars.

There are five other festivals which include musical performances as part of their celebrations. The Midsummer Festival includes traditional costumes, foods, songs and the traditional bonfire. Latvians love their history so Cesis Castle is the site for a day of re-enactments of medieval life. For free concerts and entertainment visitors and locals go to the Riga City Festival where

everyone also enjoys lots of fun and activity in the streets. The Staro Riga Light Festival displays lights shining on beautiful old buildings and bridges while locals and tourists enjoy musical performances, dance and theatre. The last festival of the year which is held in October (similar to April here) is for enthusiasts of music, performing arts and for filmmakers

In Latvia the weather is so cold that all the outdoor festivals are crammed into the short summers when there is sunshine and the daytime temperatures range from 17 to 34. The winter daytime temperatures range from - 2 degrees to -7 degrees and for about six months the sky is completely overcast. Hence outdoor activities and festivals are all crowded in to the short summer season with locals and visitors alike enjoying the fun.

There is the Riga City Festival in the capital where all food, music, entertainment and art displays are free. Riga Restaurant Week is organised to promote cuisine with three course meals being sold at food stall prices. The Staro Light Festival displays buildings and bridges lit up and performances of music, theatre and dance.

Other festivals include the Positivus music festival for young people which is held on the coast; two opera festivals, one this year is based on The Flying Dutchman and the other is for international opera singers and is held in a castle. There are festivals which are mainly based on choral music. The midsummer festival with traditional costumes and activities has a formal bonfire as the focus; this is held at the end of their summer and is for serious music enthusiasts, performers, artists and film makers.

Anne McVilly - International Officer

CRAFTY MONDAY GROUP

CWA invites ladies to come to craft on Mondays from 10.30am. We knit, sew, crochet and other crafts and share knowledge in a safe, warm environment.

CHRISTMAS RAFFLE

The Tarago CWA is selling tickets for its Christmas raffle over the next few months. Ann and Pam will be at the markets - Tarago & Windellama and you will spot them at other community events. Prizes will be **a Sumptuous Christmas Hamper, a Bountiful Baileys Selection, a Luxuriant Pamper Pack and a Gift Voucher too.** Tickets will be drawn at the Branch meeting on 14 December.

BUS TRIPS

It was a near full bus to Yass for our September bus trip, Clementine's Bakery, Ross' Relics, Vinnies, Salvos, Creator's Nest, Liberty Theatre's Bookshop and Craft shops and Boots & Buckles were just some of the shops we called into and then we headed to the Yass Soldier's Club for a quick and lovely lunch. A drop off on the way out of town to Merchant Campbell saw our shopping done for the day.

Our October bus trip is to the Bredbo Christmas Barn and lunch at the Bredbo Inn and November will be to the Cockington Green area and the George Harcourt Inn for lunch. We may fit in a December trip too !

Book early. Held once a month on the 3rd Thursday. Contact Jenni Cole for further details.

EVENT DIARY for OCTOBER

12 - Tarago CWA Branch Meeting & AGM

15 - Group AGM, Goulburn

29 - Market In Tarago - CWA catering (Tarago Country Kitchen with BBQ for breakfast, morning tea and lunch)

HAPPY BIRTHDAY for OCTOBER

Ann Cosgrove & Jenny Hajek

Branch Meetings are held at

7 Braidwood Road, Tarago usually on the 2nd Wednesday of the month, 10am for 10.30am
