Helping Learner Drivers Become Safer Drivers

Will your son or daughter or someone you know soon be learning to drive? To help our community’s learner drivers become safer drivers, Goulburn Mulwaree Council is holding the following free events during August / September:

FREE WORKSHOPS FOR PARENTS/SUPERVISORS

Council holds FREE workshops for the parents and supervisors of Learner Drivers. The Helping Learner Drivers Become Safer Drivers workshops aim to provide advice about:
- Understanding new laws for L and P license holders.
- Supervising learner drivers and completing the Learner Driver Log Book.
- Understanding the benefits of supervised on-road driving experience.

The next workshops will be held in the Council Chambers from 6pm to 8pm on Wednesday 31 August 2008 for parents and supervisors only. This workshop is held in conjunction with the RTA.

LOGBOOK RUN FOR LEARNER DRIVERS AND PARENTS/SUPERVISORS

The Logbook Run for Learner Drivers and their parent/supervisors will be held at Council at 11am on Sunday 4 September. The Logbook Run follows a route that includes a wide range of driving conditions & tasks such as random breath tests (RBT), roundabouts, highway driving, traffic lights and narrow bridges.

The drive concludes with free BBQ lunch provided by the Rotary Club of Goulburn, a heavy vehicle display courtesy of Divall’s Earthmoving and a display of defensive driving tips at the NSW Police Driver Training School by Police Driving Instructors. The Logbook Run finishes around 2pm.

Participant numbers for both events are limited and bookings are essential. For further information call Road Safety Officer Janelle Read on 4823 4510 or visit www.goulburn.nsw.gov.au for a registration form.

Windellama Country Markets & Car Boot Sale

Sunday 18th September

10am - 2pm

at Windellama Hall

Devonshire Tea
Toasted Sandwiches
Deli delights
Toys
Linen
Cakes
Craft goods
Honey

All our plants are ideal for local conditions

• Advanced ornamental and Fruit trees
• Windbreak and hedging
• Native and exotic shrubs
• Farm trees and tube stock
• Garden design and horticulture
• Special orders and contract growing
• Irrigation installations and repairs

Sat & Sun 8am-5pm, Frid & Mon 10am-3pm, or call for other times

LEMONS & selected CITRUS in stock now
Also bare root and potted FRUIT TREES
In Your September Garden  From Irene Turner

This month add compost or well de-composed animal manure to vegetable and flower gardens, also add lime to the plants that need it, like peas, cabbages, beans, roses. Do not add lime to the garden where you are planting strawberries, tomatoes, azalea or camellia.

Vegetables:
Seed – carrot, parsnip, silverbeet, onion, cabbage, radish, kohlrabi, pea, beetroot.

Potato tubers can be planted from September to December when the worst of the frosts are over. They need good drainage. The tubers (or seed potatoes) are planted 15cm deep and 75cm apart. Apply a general fertiliser or blood & bone at the rate of a good handful below the tuber per metre.

Flowers:
Seedlings – violas, verbena, dianthus, carnations, stock, wallflower, dwarf sweet Williams, nemesia. Polyanthus; and for summer display petunias and phlox.

Gladioli bulbs can be planted now. Dig in plenty of compost; you need good drainage and sun. If you have sandy soil plant 20cm deep; in heavy soil 12cm deep. You can stake at this stage. Gladioli take about 90 days to flower. Add a light dressing of complete fertiliser when planting, this will ensure large healthy flowers. Watch for thrips – small sucking insects which suck the sap from the plant – the plant then appears to be burnt with flowers sometimes distorted or not opening properly. You can spray with Rogor or Lebaycid when the plants are 8-10cm above the ground.

You can sow lawn seeds now. For established lawns spray for weeds and bindii now. There is a product called Weed and Feed for lawns.

Chrysanthemums – new plants are available now. Well established clumps can be divided now. Take cuttings from plants in your garden; cuttings should be about 8cm long and placed in a pot of coarse sand and compost; keep moist. They should strike in 2-3 weeks.

Natural Remedies

Warts
These bothersome skin growths are caused by a virus. Find a health food shop with a herbal dispensary and ask them to make you up a 200ml liquid extract of 50% each of greater celandine and thuja. Apply the mixture to the wart after showering in the morning and before you go to bed. The wart will turn black, dry up, and eventually fall off.

Tension Headache
This remedy helps provide relief, along with cooling and comforting. Add 2 drops of peppermint essential oil to a cup of ice cold water. Soak a face washer in this and then wring out. Lie down for 15 minutes with the cold compress on your brow. Chamomile, passionflower and lime flower blossom (linden) teas are also relaxing and helps relieve stress that causes headaches.
GOULBURN AUTOMOTIVE SERVICES
9a Victoria Ave, Goulburn

Cavers gather for big operation at Bungonia

Over one intense, action packed weekend a team of experienced cavers worked with the NSW National Parks and Wildlife Service (NPWS) to carry out the delicate task of installing a complicated new bridge and ladder in a cave at Bungonia National Park to protect the fragile ecosystem from inadvertent damage caused by visitors to the cave.

NPWS Area Manager, Graham Bush, said today that the job of designing and installing a bridge and ladder in a cave was a difficult operation.

The B4-5 cave system, also known as Fossil Cave and Hogans Hole is popular amongst recreational cavers, taking two to three hours for a group to navigate. Unfortunately, constant usage was taking its toll on some of the more important values of these caves resulting in degradation. However a team of experienced cavers came up with the solution, which was to install a specially designed bridge and ladder to reduce the erosion caused by people.

Members of the Highlands Caving Group, Canberra Speleological Society and the NPWS collaborated on the design and fabrication of a final bridge structure. A mock PVC pipe side section of the structure was made within the cave system to see how it would work and fit. It was then removed in sections and later helped with the fabrication of the final bridge sections.

Once the bridge and ladder were constructed, a team of twenty six experienced cavers installed the bridge over a weekend. The cavers were from six different Australian Speleological Federation caving clubs. It was a difficult job in really cramped conditions.

The NPWS is really grateful for all the help from the caving clubs. In particular, we are very appreciative of the assistance provided by Joe Sydney from the Highlands Caving Group and Dirk Stoffels from the Canberra Speleological Society who planned and coordinated the project.

NPWS provides the luxuries at Bungonia camp ground

Campers at Bungonia National Park southeast of Goulburn will now enjoy the luxury of filtered water on tap as part of a major upgrade of facilities at the camp ground.

NPWS Area Manager, Graham Bush, said that visitors will really start to notice some major improvements in the coming months.

It’s a really popular camping ground shared by many people throughout the year who come to Bungonia for all many of activities. It’s particularly popular among groups who come as clubs to undertake activities such as caving, rock climbing and abseiling.

So the site gets a fair work out year round and we are starting to address some of the general wear and tear that’s become more obvious, such as erosion and vegetation loss as well as provide some luxuries you don’t usually see at camp grounds in remote locations.

New tent pads are being created along with planting vegetation to provide a little more privacy to camp sites. There are going to be new gas BBQs, shelters, picnic tables and landscaping. The existing camp kitchen has also had a makeover with external paint finishes and an upgrade of cooking facilities, new gas cook tops plus a gas room heater.

Probably the most important improvement has been the installation of a new water supply system that has meant the replacement of all existing water lines serving the camp ground and the installation of a UV treatment unit and pump. So now there’s UV treated water to all water outlets in the camping area.

Perhaps the flashiest improvement has been the installation of three dedicated filtered water stations which are available for campers to fill up drinking water bottles and large water containers for their onsite camping needs.

I have no doubt that people camping here in the future will be very impressed with the improvements,” Mr Bush said.

GOD’S REMNANT ASSEMBLY

GOD’S REMNANT ASSEMBLY AUSTRALIA (GRA Australia)

Would you like to know more about Jesus?
Do you want to know the LIFE He has for you -
your destiny, your gifts, your purpose?

We are a husband and wife team with GRA, a trans-denominational missionary movement. GRA works around the world, including Iraq, Iran, Afghanistan, Nigeria, Sudan and is new to Australia. We believe Australia needs the Word, fresh and new, as it is being shared around the world and setting lives alight with the beauty and Truth of Jesus.

We have started a home Church in our community and introduce ourselves – Bunja and Judith Smith. If these words have stirred or touched you please contact us to hear more about this Ministry that is new to Australia:

by phone - 0401 912 193 or by post -

Pastors Bunja and Judith Smith
Gods Remnant Assembly Australia
GPO Box 1695, Canberra City ACT 2601

Be part of this exciting work in our community:

Sunday morning - we sing and study His profound truths
Tuesday evening – we plan the ministry, outreach and study His Word
Thursday evening – we praise and enjoy a power prayer hour.

Jesus’ love never fails. John 15 : 12
